AMERICAN**RHEINMETALL**

A FULL-SERVICE PROVIDER OF TRACKED, WHEELED, AND ROBOTIC VEHICLES, SYSTEMS,
AND COMPONENTS SERVING BOTH DEFENSE AND COMMERCIAL MARKETS

AMERICAN RHEINMETALL

WHERE STRATEGIC VISION MEETS UNMATCHED CAPABILITIES

American Rheinmetall, headquartered in Auburn Hills, MI, is a trusted leader in the design, development, and production of advanced tracked, wheeled, and robotic vehicles, systems, and components, playing a pivotal role in U.S. military modernization.

Leveraging Rheinmetall's extensive global portfolio, American Rheinmetall is able to adapt and integrate proven, combat-tested platforms into designs that meet the specific needs of the U.S. military.

As a diversified full-service vehicle Original Equipment Manufacturer (OEM) and Tier1 Supplier, American Rheinmetall delivers cutting-edge vehicle systems, mechanical systems, intelligent systems for ground vehicles and ISR platforms, Soldier lethality enhancements, short range air defense solutions (SHORAD), fabricated structures, armored products, rubber solutions, and track systems, serving both defense and commercial markets with innovation and precision.

American Rheinmetall is committed to providing critical products and support direct to the U.S. Government, its major prime contractors, as well as prominent vehicle manufacturers in agriculture, construction, mining, locomotive, mass transportation, and oil & gas industries.

A FULL-SERVICE VEHICLE ORIGINAL EQUIPMENT MANUFACTURER OFFERING:

WHEELED COMBAT VEHICLES

Our wheeled combat vehicle offerings are designed to provide exceptional versatility, mobility, and survivability in modern military operations. The Boxer and RCH155 self-propelled howitzer are built to perform across a wide range of missions, from troop transport and reconnaissance to command and control, and direct combat.

TRACKED COMBAT VEHICLES

Rheinmetall is a leading supplier of armored tracked vehicle systems in all weight classes. American Rheinmetall is developing next generation tracked combat vehicles in support of Army modernization priorities.

LOGISTIC VEHICLES

Rheinmetall's logistic vehicles are designed to provide robust and versatile support for military operations, ensuring the efficient transportation and supply of troops, equipment, and materials in complex and dynamic environments. American Rheinmetall is competing in the U.S. Army's Common Tactical Truck (CTT) program with the HX Tactical Truck.

UNCREWED GROUND VEHICLES

Rheinmetall's Uncrewed Ground Vehicles (UGVs) are advanced robotic platforms designed to enhance military operations by providing uncrewed support in hazardous and demanding environments.

A TIER 1 SUPPLIER SERVING DEFENSE AND COMMERCIAL MARKETS WITH:

AIR DEFENSE SYSTEMS

Rheinmetall's air defense systems deliver integrated, multi-layered protection against a wide spectrum of airborne threats – including drones, missiles, and aircraft – through advanced technologies such as automated fire control, airburst ammunition, guided missiles, and radar systems, all from a single source.

ARMOR PRODUCTS

Advanced, bolt-on armored products that ensure Warfighter and critical subsystem survivability.

FABRICATED STRUCTURES

Manufacturing of large structures and complex platforms – any hull in the U.S. combat vehicle fleet from raw plate to finishing.

INTELLIGENT VEHICLE SYSTEMS

Rheinmetall's intelligent vehicle systems integrate advanced sensors, AI-driven decision-making, and networked communication to enhance situational awareness, safety, and operational effectiveness for military and civilian vehicles.

LONG RANGE PRECISION FIRES

Advanced manufacturing solutions for long range fires, with a focus on precision, high-accuracy machining. 5-axis CNC machining centers and specialized support equipment deliver complex missile body components that meet the most demanding tolerances. Efficient production processes of critical structures for multiple long range fires programs ensure consistent quality, reliability and performance for the Warfighter.

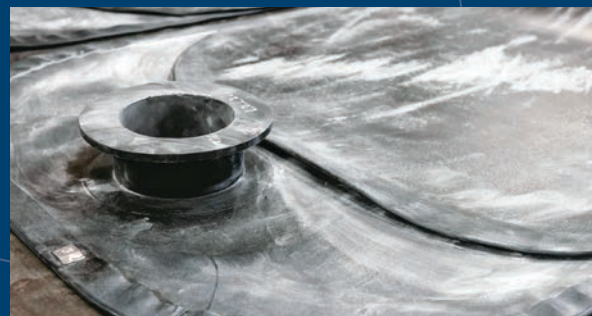

MECHANICAL SYSTEMS

Best-value, full-service provider of driveline and suspension systems for military and off-highway platforms.

MILITARY TRACK SYSTEMS

American Rheinmetall is the only qualified supplier for every major ground combat vehicle platform in the U.S. Army fleet.

RUBBER COMPOUNDING & RUBBER PRODUCTS

High-quality rubber-to-metal bonded products, rubber liners, and rubber compounds for a variety of industries.

SOLDIER SYSTEMS

Rheinmetall's Soldier systems feature advanced laser aiming, illumination, and range-finding technologies that enhance precision, situational awareness, and effectiveness in low-light and complex operational environments.

SURVEILLANCE SYSTEMS

Rheinmetall's surveillance systems combine advanced sensor technologies, electro-optical capabilities, and mobile counter-drone solutions to provide comprehensive situational awareness, real-time threat detection, and enhanced operational security across diverse environments.

WEAPON SYSTEMS

Rheinmetall's weapon systems integrate advanced fire control technology and robust weapon mounts to enhance accuracy, versatility, and effectiveness for a wide range of crew-served and vehicle-mounted armaments.

Trackman

THE TRUSTED SOURCE FOR THE TOUGHEST TRACK

Trackman is a trusted partner for high-performance rubber tracks, wheels, and hay conditioner rollers designed to excel in demanding industries, including agriculture, construction, and mining.

Proudly American-Made

Every Trackman product is manufactured in the U.S., ensuring exceptional quality and supporting American industry.

Why choose Trackman?

- Unrivaled Customization
 - 150+ active track specifications
 - Nearly unlimited combinations of track width, length, guide/drive lugs, and tread lugs
 - Tailored solutions to meet the unique demands of your equipment and environment
- Premium product offerings
 - Rubber tracks: fully molded with the world's strongest drive lugs
 - Rubber and poly wheels: built for durability and peak performance
 - Hay conditioner rollers: delivering reliable performance for the toughest jobs

With over 30 years of expertise, Trackman is now proud to be part of American Rheinmetall, continuing its tradition of delivering unmatched quality and innovation.

AMERICAN RHEINMETALL

OUR EXPERTISE – DECADES OF PROVEN EXCELLENCE

“American Rheinmetall successfully designs products upfront in the product life cycle, enabling for a smooth transition into production and sustainment.”

Anthony Militello
Vice President of Product Engineering

At American Rheinmetall, innovation meets precision to deliver next-generation solutions for both defense and commercial markets. Backed by a legacy of advanced engineering and strategic collaboration, our expertise spans the full spectrum of mission critical capabilities and cutting-edge technologies that have allowed us to defend and feed America for over 85 years.

Specialized Capabilities That Drive Results

- Product development
- Digital and design engineering – Founded on innovation
- Manufacturing and assembly
- Machining and welding
- Platform integration
- Supply chain management
- Packaging and kitting
- Quality assurance
- Field service support

AMERICAN RHEINMETALL AS AN EMPLOYER

A WORKPLACE DEFINED BY PURPOSE, POSSIBILITY, AND PROGRESS

At American Rheinmetall, we believe that our greatest strength is our people. We foster a culture of collaboration, respect, and continuous growth – where every voice matters and every team member has the opportunity to make an impact. Whether you're driving innovation in the engineering lab or supporting critical operations on the shop floor, you'll find a workplace that values your contributions, invests in your development, and empowers you to grow a meaningful, rewarding career.

RHEINMETALL

TAKING RESPONSIBILITY IN A CHANGING WORLD

Rheinmetall AG, publicly listed and based in Düsseldorf, Germany, is a powerful, internationally successful corporation. As an integrated technology group, Rheinmetall is a market leader in the areas of environmentally friendly mobility and threat-appropriate security technology. The group's Defense sector is Europe's foremost supplier of defense and security technology and a longstanding partner of the armed forces. Rheinmetall products set the global standard for excellence in a wide array of disciplines: from vehicle, force protection, and weapon systems to infantry equipment, air defense, network-enabled warfare capabilities, electro-optics and simulation technology. Providing friendly forces with the best-possible protection – that is our mission and responsibility in an ever-changing world.

FIVE DIVISIONS – ONE GOAL

Rheinmetall's structure is comprised of five divisions – Vehicle Systems Europe, Vehicle Systems International, Weapon and Ammunition, Electronic Solutions, and Power Systems. The transfer of technology between the individual parts of the group and a focus on future-driven technologies and business areas with large potential for sustained growth and value enhancement are the cornerstones of the structure.
