

SOFTMOUNT CARACAL

The SOFTMOUNT CARACAL is a Softmount with adapter for MG5 type of weapons. The mount can take 3 different weapon types: 12.7 mm (.50cal) M2 Browning heavy machine gun (HMG), various 40mm automatic grenade launchers (AGL) as well as MG5 type of weapons.

The SOFTMOUNT CARACAL is a versatile weapon mount, which can be mounted as well on various other vehicles, pedestals, and tripods. The mount reduces recoil forces and improves ergonomics to reduce weapon dispersion and increase hit probability. The shoulder support and trigger system greatly improve the ergonomics, making the weapon easier and faster to operate, engage and control.

Adapter MG5

The SOFTMOUNT CARACAL offers several advantages to the gunner:

- Improved accuracy and grouping
- Rapid engagement of multiple targets
- Increased first hit probability
- Reduced recoil forces
- Improved ergonomics
- Easy maintenance
- The reduced recoil minimizes the wear and tear of the weapon
- Elevation can be fixed in level position
- Simple mounting and use
- Reduces stress
- Elevation -25° up to $+55^{\circ}$

MAIN FEATURES

- Fits both HMG and AGL as well as MG5 type of weapons
- Reduced recoil up to (>80% for HMG and >50% for AGL)
- Standard NATO pintle interface (G3 cone)
- Applicable for land and navy operations – salt water resistant
- Light-weight <14 kg (dependent on configuration)
- Shoulder support – improved weapon stability
- Sight Adjustment Kit – quicker sight adjustment
- Trigger system – improved accuracy and stability
- Ease of training – same interface for both HMG and AGL
- Switching to MG5 type of weapons by inserting the Adapter MG5

3 different weapons in one single mount. Switching weapons in 30 seconds and no need for bore sighting!
